WINE OF MOLDOVA

A LEGEND ALIVE

Moldovan wines have a leading role in the history of the country. The vineyards in these lands have been cultivated over the centuries by hard work and dedication. Wine has become Moldova's emblem and represents its growth and success. Wine of Moldova is the national brand of the wine industry in Moldova.

Production of Moldovan wine is carried out with passion, care and expertise. It is produced from local and European grape varieties, hand-picked from the hillside vineyards and those adapted to the local terroir. Care is taken to maintain the authenticity and traditional style of winemaking, producing amazing wines to be enjoyed locally and across the world.

Sommelier Artur Andronic works closely with Moldovan wineries and our local distributor/importer, to provide you with a wide variety of wines from Moldova, from every day entry level to highly awarded premium wines.

If Moldovan wines are not your thing yet, we have carefully selected a list of fantastic international wines as well. Think Italy, France, New Zealand and more, but also some amazing finds from Georgia, Armenia, Croatia, Bulgaria and others.
